Directions for Use

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- Read the label affixed to the container for RightLine NEMAMECTIN 0.7 SC before applying. Carefully follow all directions for use, restrictions and precautions.
- The user should have this recommendation in their possession at the time of use.

For control of Bermudagrass mite (*Eriophyes* spp.) on golf course greens, tees, and fairways, apply RightLine NEMAMECTIN 0.7 SC at 3.125 to 6.25 fl. oz./acre on a 14-day interval. Begin applications prior to or in the early stages of symptom development. Tank mix with a surfactant or wetting agent and water in with 0.1 to 0.25 inch of irrigation immediately after application.

Follow all other directions for use, restrictions and precautions on the RightLine NEMAMECTIN 0.7 SC label.
