

RightLine™

™

Heroic 450™

Complete Turf Fertilizer

HEROIC 450™ is a proprietary complete fertilizer that delivers the three primary plant nutrients in an entirely new manner. Novel Bio-available forms of Phosphorus and Potassium enable the product to provide HEROIC turf performance at historically impossible rates. With this new technology, the need for granular fertilizer will be less. In fact, 1 gallon of HEROIC 450™ replaces 200 LBS/ACRE DIAMMONIUM PHOSPHATE plus 250 LBS/ACRE SULFATE OF POTASH (which is where the 450 in the name comes from).

Key Benefits

- Provides all three primary plant nutrients for plant growth and development.
- Delivers plant available phosphorus and potassium.
- >90% Nutrient Availability versus <10% from conventional granular fertilizers.
- Uniquely formulated for tank mix compatibility with RightLine GROOM PGR.
- Contains a zero-biuret formulation of urea nitrogen to prevent burning.
- Application Rate from 1.5-3oz per 1,000 square feet (1/2 - 1 gals per acre).
